With reference to the above, you are hereby requested to consider the following points while preparing the A.A. estimate for tube well schemes under PMKSY-HKPP-Ground Water for the year 2018-19 and incorporate the same in the report.

1. The scheme where it is planned should not be in areas classified as over exploited, critical & semi critical areas meeting the following criteria:
  - a. Average annual rainfall of 750mm or more to have availability of enough water for recharge.
  - b. During pre-monsoon period the shallow ground water level is within 15m below ground level or less.
2. The beneficiary under this scheme shall be small & marginal farmers only with priority to be given to SC/ST & women farmers.
3. The scheme is applicable for individual farmers, group of farmers/co-operation.
4. The scheme should be part of DIP/SIP prepared under PMKSY.
5. To minimize the failure of wells geophysical & hydro-geological investigation may be carried out for proper site selection.
