

OBJECTIVES OF PMKSY

The real goal of the PMKSY is to accomplish the merging of investments in the irrigation sector at the field level.

Other objectives include:

-  Increasing accessibility of irrigation facilities and expansion of cultivable range under guaranteed irrigation areas (Har Khet ko Pani)
-  Enhancing On-Farm water use efficiency thus ensuring lesser wastage of water
-  Integrating the source, distribution, and efficiency of water through appropriate technologies
-  Enhancing and promoting the implementation of precision- irrigation and other water-saving technologies (Per Drop More Crop)
-  Enhancing refilling of aquifers and present supportable water protection rehearses by investigating the attainability of reusing treated city-based water for peri-urban farming

-  Ensuring integrated development of rainfed areas by different methods like:
 - Regeneration of Groundwater
 - Providing livelihood and other NRM Activities (natural resource management)

-  Promoting extension activities for farmers and field workers like:
 - **Water Management**
 - **Crop alignment**

-  Drawing in more noteworthy private investment in precision irrigation system framework. This will result in increased production and productivity which will further enhance farm income.
